Disclaimer

The information contained in this document is provided for information purposes only and is not intended to be and should not be construed as providing legal or investment advice.

The information contained in this document does not constitute an offer or invitation, or a solicitation of an offer, to subscribe for or purchase any securities. Any decision to purchase securities in any offer of securities from Rentenbank should be made solely on the basis of the information contained in the offer document that may be distributed in connection with any offer of securities of Rentenbank, if any. Neither this document nor any clause contained herein shall form the basis of any contract or commitment whatsoever and it has not been approved by any authority which regulates securities.

The information and any opinion expressed herein is subject to change without notice and Rentenbank is under no obligation to update or keep the information contained herein current. Rentenbank does not assume any responsibility or obligation to update or revise any such statements and accepts no liability whatsoever for any loss or damage of any kind arising from the use of all or any part of this document.

This Green Bond Investor Report may contain projections and forward-looking statements which are not based on historical facts but instead represent Rentenbank's beliefs regarding future events. Such statements are based on management's current expectations and are subject to risks, uncertainties and changes in circumstances. Any such forward-looking statements are exclusively made as at the date this document was issued and Rentenbank does not undertake to update forward-looking statements to reflect the impact of circumstances or events that arise after the date the forward-looking statements were made.

If Rentenbank's use of the net proceeds from Green Bonds is a factor in the investor's decision to invest in Rentenbank's Green Bonds, the investor should consider the aforementioned statements and consult with their counsel or other advisers before making an investment in Rentenbank's Green Bonds.

Rentenbank publishes its Green Bond Investor Report in accordance with section 7 of the Green Bond Framework. The Green Bond Investor Report consists of an Allocation Report based on the cut-off date 31 December 2020 for the Eligible Green Loans and consists further of an Impact Report for the Eligible Green Loan portfolio for the year 2020.

Unless otherwise stated, terms defined in the Green Bond Framework – when used in this Green Bond Investor Report – shall bear the same meaning as in the Green Bond Framework 2020.

This Green Bond Investor Report has been prepared in accordance with the reporting procedures and requirements as described in Rentenbank's Green Bond Framework 2020.

Rentenbank Green Bond Allocation Report

31 December 2020

Eligible Green Loan portfolio			Green Funding				
	Number of loans	Amount (EUR) ¹	Instrument (ISIN)	Issuance date	Due Date	Principal	Amount (EUR)
Renewable Energy							
Wind	3,241	5,091,036,953	XS2233120554	15.09.2020	22.09.2027	EUR 1,750,000,000	1,750,000,000
Solar	19,367	1,856,640,981	XS2238022060	18.09.2020	28.09.2027	SEK 1,000,000,000	96,201,022
Total	22,608	6,947,677,934	Total				1,846,201,022

Percentage of Eligible Green Loan portfolio allocated to net proceeds of green funding (Usage) 27%

Percentage of net proceeds of Green Bonds allocated to Eligible Green Loan portfolio (Allocation Ratio) 100%

Eligible Green Loan portfolio - Unallocated (Exceeding Amount) EUR 5,101,476,912

New loans in the Eligible Green Loan portfolio since 31 December 2019² EUR 1,108,194,078

² Of which EUR 655,001,006 is owing to a one-off effect

Rentenbank **Green** Bond Impact Report

31 December 2020

The positive environmental impact of Rentenbank's Eligible Green Loan portfolio from 01 January 2020 to 31 December 2020 was calculated in cooperation with the Centre for Solar Energy and Hydrogen Research (ZSW) in Stuttgart.

Eligible Green Loan portfolio	Number of loans	Amount (EUR)	Total installed capacity of renewable energy in MW ³	Annual renewable energy generation in GWh	GHG emissions avoided in tCO ₂ eq
Renewable Energy					
Wind	3,241	5,091,036,953	3,550	7,901	5,551,400
Solar	19,367	1,856,640,981	1,652	1,520	928,900
Total	22,608	6,947,677,934	5,202	9,421	6,480,300

The full ZSW study regarding the positive environmental impact of the Eligible Green Loan portfolio can be found on Rentenbank's webpage under the section '**Green** Bonds'.

³ The total amount of the impact indicator 'Total installed capacity of renewable energy in MW' consists of Wind and Solar energy projects with different peak energy generation capabilities
